PROFILE

Solutions Analyst with 10+ years of B2B client-solutions experience, with hands-on exposure to insurance and workers' compensation operations. Designs and builds AI-powered workflow tools—voice agents, chatbots, and governed AI agents—that turn business requirements into secure, working solutions. Primary focus on generating positive client outcomes that drive sales and new opportunities.

KEY ACHIEVEMENTS

- Drove 12.24% year-over-year growth across a \$1M+ B2B client portfolio over three years.
- Project-managed the development and launch of new ID and video verification solutions from concept to delivery, adding \$136K in revenue across 2 clients.
- Designed data-driven reporting and live enrollment processes that reduced manual effort by ~85%.
- Founded Dary Technologies, LLC and built AI products end to end—including a Claude-powered phone receptionist and a live website chatbot (see page 2).

WORK EXPERIENCE

Operations Lead & Client Solutions Manager

TPV.com | AnswerNet June 2020 – June 2026

- Led discovery and requirements-gathering for Third-Party Verification (TPV) solutions, translating client business needs into technical workflows for telecom and retail energy clients.
- Managed and retained a \$1M+ client portfolio, strengthening renewals and driving account expansion.
- Project-managed development and launch of new ID and video verification solutions, coordinating cross-functional teams and stakeholders from concept through delivery.
- Analyzed billing, invoicing, and account data to identify and resolve discrepancies.
- Resolved technical escalations and led user acceptance testing, handling upwards of 30–36 issues per month.

Technical Solutions Manager

Apex Legal Solutions Jan 2016 – June 2020

- Coordinated scheduling and court-reporter resourcing for high-volume depositions across 35 concurrent cases, optimizing capacity and turnaround.
- Analyzed billing reconciliations and negotiated court-reporter rates, lowering vendor costs while raising client billing rates 35% based on competitive benchmarking.
- Served as primary liaison between legal teams, clients, and operations, ensuring seamless communication and on-time case execution.
- Designed and launched a fully remote, Zoom-based deposition model during COVID-19, sustaining 100% business continuity and attracting case referrals from 2–3 additional attorneys.

AI TOOLKIT

Claude (Anthropic API)
Claude Code (agentic development)
Model Context Protocol (MCP)
Deepgram (speech-to-text)
ElevenLabs (voice & media)
Twilio & SignalWire (telephony)
Apple Speech (on-device)

TECH STACK

Node.js & TypeScript
React, Next.js & Tailwind
Laravel / PHP
SwiftUI (iOS)
PostgreSQL, MySQL & SQLite
Linux VPS, Nginx & PM2
Google Calendar & Places APIs

EDUCATION

Business Administration Coursework

Santiago Canyon Community College
Sept 2007 – Aug 2009

OTHER EXPERIENCE

Durable medical equipment (DME) delivery and patient coordination—applicable to workers' compensation claims and carrier operations.

AI KNOWLEDGE & APPLIED USE

- LLM application design: per-business system prompts, tool calling with validated inputs, and answers grounded in a curated knowledge base.
- Real-time voice AI: chaining speech-to-text, an LLM, and text-to-speech over live phone calls, with caller interruption handling and latency tracking.
- Responsible AI: redacting card numbers and SSNs from transcripts, audit-logging AI actions, defending against prompt injection, and tracking AI cost.
- AI agents: designed a team of Claude agents (sales, SEO & analytics, Amazon marketplace, development) governed by rules to verify facts, cite sources, and store only verified knowledge.
- AI-assisted delivery: Claude Code from requirements to spec, plan, test-driven build, and security review; built a custom MCP server connecting AI to a notes vault.

AI & PRODUCT PROJECTS

Dary Technologies, LLC — Founder & Lead Developer

AI Voice Receptionist

Node.js · Twilio · Deepgram · Claude · ElevenLabs · Google Calendar

- AI phone agent that answers calls, books appointments, takes messages, transfers calls, and texts the owner about urgent issues.
- Built for trust and cost control: PII redaction, audit logs, per-call cost across four vendors, and 117 automated tests.

AI Website Chatbot

Claude API · Node.js · Live on darytechnologies.com and a client wellness site

- Claude-powered assistant answering visitor questions from a curated business knowledge base.

HIPAA Development Requirements Knowledge Base

Security & compliance standards

- Translated HIPAA Security Rule technical safeguards (§ 164.312) into 48 testable requirements with a traceability matrix and five security standards.

Pay-Per-Minute Phone Consultation Platform

Stripe · SignalWire · PostgreSQL

- Prepaid wallets, per-minute call billing, and an append-only financial ledger; two security reviews completed.

Client Solutions & Infrastructure

Node.js · Next.js · Stripe · SwiftUI

- Form Gateway: multi-tenant form relay serving live client sites, with rate limiting, spam traps, and health monitoring.
- Client work: 23-page real-estate & lending site with 3 mortgage calculators; Stripe checkout for a CPR training business; Google Reviews widget.
- Analyze My Speech: iOS app scoring pace, filler words, and pauses with on-device transcription.
