PROFILE

Solutions Analyst with 10+ years of B2B experience supporting insurance carriers, focused on generating positive client outcomes that drive sales and upselling opportunities. Brings a technical background in process automation and data analytics, translating data-driven insights into streamlined operations, stronger client relationships, and measurable revenue growth.

WORK EXPERIENCE

Client Solutions Manager

TPV.com | AnswerNet June 2020 – Present

- Led discovery, onboarding, and business development initiatives for Third-Party Verification (TPV) solutions supporting telecom and retail energy clients.
- Managed a client portfolio exceeding \$1M in revenue, driving consistent year-over-year growth over a three-year period.
- Directed new service development and cross-functional project execution.
- Oversaw billing processes, invoicing, and client agreement administration.
- Provided technical support, troubleshooting, user acceptance testing, and system-level issue resolution.

Technical Solutions Manager

Apex Legal Solutions Jan 2016 – June 2020

- Managed scheduling for high-volume depositions, coordinating court reporter services across multiple concurrent legal cases.
- Oversaw billing reconciliations and vendor negotiations with court reporters, optimizing costs and payment accuracy.
- Served as primary point of contact between legal teams, clients, and operational staff, ensuring seamless communication and case execution.
- Pioneered a fully remote deposition model during the COVID-19 pandemic, enabling business continuity and expanding service to new markets.

EDUCATION

Certificate in Cybersecurity

University of Riverside Sept 2023 – May 2024

Business Administration Coursework

Santiago Canyon Community College Sept 2007 – Aug 2009
