PROFILE

Resourceful and KPI-driven Client Success and Technical Operations professional with experience managing multi-client portfolios, building scalable verification solutions, and driving measurable revenue growth. Adept at resolving operational bottlenecks, negotiating service agreements, and implementing technical integrations. Recognized for maintaining composure under pressure and delivering profitable, client-focused solutions.

WORK EXPERIENCE

Sr. Client Solutions Manager

TPV.com | AnswerNet

June 2020 – Current

- Led discovery, onboarding, and business development initiatives for Third-Party Verification (TPV) solutions supporting telecom and retail energy clients.
- Managed a client portfolio exceeding **\$1M in revenue**, driving consistent year-over-year annual growth over a three-year period.
- Directed new service development and cross-functional project execution.
- Oversaw billing processes, invoicing, and client agreement administration
- Provided technical support, troubleshooting, user acceptance testing, and system-level issue resolution.

Technical Solutions Manager

Apex Legal Solutions

Jan 2016 – June 2020

- Coordinated deposition scheduling and managed court reporter services
- Invoicing, reconciliations, and reporter negotiations.
- Acted as liaison between legal teams, clients, and operational staff
- Developed the remote deposition business model during the pandemic.
